REMARKS

The Advisory Office Action states that the currently rejected claims still fail to distinguish the bumps from a rough surface.

Applicants have amended independent claim 1 and added claim 25 to define the bumps in better clarity for distinguish over the continuous rough surface.

With respect to amended claim 1, the bumps are separated by a spatial separation. This is not the nature rough-surface. The bumps are formed on the slant surface.

With respect to claim 25, the drawing has shown the substantially equal size and shape for each bump.

For at least the foregoing reasons, Applicant respectfully submits that independent claim 1 patently define over the prior art references, and should be allowed. For at least the same reasons, dependent claims 2-12 and 25 patently define over the prior art references as well.
